SKILLS

Programming Languages:	TypeScript, JavaScript, SQL, NoSQL, C++, Python, C#, Java (Intermediate)
Frameworks/Libraries:	Next.js, React, Angular, Node.js, Express.js, Tailwind CSS, Flask, RESTful APIs
System/Architecture Skills	Data Structures & Algorithms (DSA), System Design
Tools & Methodologies:	Agile (Scrum), Jira, AWS, Postman, VS Code, CI/CD (GitHub Actions), Git, GitHub
Databases:	MongoDB, PostgreSQL, Mongoose, Prisma
Spoken Languages:	English, Hindi, Gujarati

WORK EXPERIENCE

Senior Software Development Engineer | Capgemini

07/2022 – Present

- Recognized with the **GEM (Going the Extra Mile) Award** for demonstrating **leadership** in setting up the project infrastructure, **mentoring** 3 engineers and improving sprint velocity by 30%.
- Recognized with the **WOW Award** for upgrading 3 legacy codebases, implementing 2 security enhancements, and collaborating across 3 teams.
- Implemented server-side filtering with Node.js and React.js for medical devices management and configuration portal.
- Upgraded 2 healthcare device's UI from Angular v7 to v18, migrating to **standalone components** and **MDC-based Angular Material architecture**, boosting performance by 30%.
- Upgraded an Angular **Micro Frontend (MFE)** codebase for the device management platform from Angular 13 to 18, improving maintainability and scalability.
- Led a **Proof of Concept (POC) for Angular 19**, worked on **two projects simultaneously**, and resolved two critical MEND vulnerabilities, ensuring license compliance and system security.
- Led knowledge transfer sessions on React and Next.js, improving onboarding speed for 3 junior developers and enabling faster ramp-up for new team members.

PERSONAL PROJECTS

RepoMate

01/2025 – 03/2025

<https://repomate.vercel.app/>

Tech Stack: React 19, Next.js 15, TypeScript, Tailwind CSS | Google Gemini AI, Assembly AI | Prisma, MongoDB

- Developed RepoMate, a **retrieval-augmented generation (RAG) tool** that helps users query **10,000+ lines of code** across repositories with **95% accuracy**.
- Designed asynchronous task pipelines to process **100+ files concurrently** using Promises and Octokit, reducing bottlenecks by 60%.
- Stored **vector embeddings in MongoDB**, enabling similarity-based retrieval in under 500ms latency.

Rentura

04/2025 – 07/2025

<https://main.d1cv13h3hovhdh.amplifyapp.com/>

Tech Stack: Next.js 15, Redux Toolkit, TypeScript, Tailwind CSS, Mapbox | Node.js, Express.js, AWS (EC2, API Gateway, RDS, S3, Cognito and Amplify) | PostgreSQL, Prisma

- Developed a full-stack, enterprise-grade rental platform with role-based access for tenants and property managers.
- Built search and filter functionality with Mapbox-powered map view, supporting location-based filtering and property markers.
- Integrated AWS Cognito for secure authentication and authorization and hosted on AWS Amplify.
- Implemented a complete application lifecycle, allowing tenants to apply for properties, and managers to approve/reject applications and generate leases.

- Designed scalable RESTful APIs using Express.js and deployed on AWS infrastructure (EC2, RDS, S3, API Gateway).
- Utilized Redux Toolkit for state management and integrated favourites functionality for authenticated users.

EDUCATION

Parul University

Bachelor of Technology in Computer Science and Engineering | CGPA: 8.07/10

Vadodara, Gujarat

07/2018 – 03/2022

CERTIFICATIONS

- **Next.js 14 & React - The Complete Guide (Udemy)** | 06/2024
by Maximilian Schwarzmüller | Duration: 40.5hrs
- **Generative AI for Everyone (Coursera)** | 03/2024
by Andrew Ng, DeepLearning.AI | Duration: 5hrs
- **The Complete 2024 Web Development Bootcamp (Udemy)** | 09/2021
by Dr. Angela Yu | Duration: 62hrs
